

Dry ice cleaning system Single-hose blasting unit for projection of dry ice

Single-hose technology with \varnothing 3mm pellets supply

Microblast MB / ESZ = The essential

Operation

Single-hose pressurized with **supersonic nozzle**
Completely pneumatic (**it does not use electric energy**)

Supply

- Microblast MB / ESZ
- "Blue" gun with hoses gun of 3.5 Mt and **supersonic nozzle**
- Use and Maintenance handbook

Technical data

Completely Made in Italy. All components are manufactured in Italy.

Uses

Dry ice 40 kg/h
Compressed air 3,7 m³/min at 6 bar

Pression

Working - 6 bar

Speed

Flow - 520 m/sec

Capacity

Pellet - 20 kg

Dimensions

300x500x750 mm

Weight

45 kg (42+3 hoses)

Connection

Air 1 " BSP
