

MLT type Linear tunnel

Cryogenic tunnel for food freezing

Characteristics

- Fully cleanable to satisfy pharma and food applications
- Built with FDA approved materials
- Designed in full compliance with CE directives
- Extreme ease of use
- Simple, low and economical maintenance

Technical characteristics

Operability

Possibility of using CO₂ or N₂ cryogenic liquid gas

Working temperature

Possibility of working temperatures lower than -100 °C

Insulation

High efficiency self-extinguishing foam insulation CFC-free

Optionals

Available on request
